

Boil Water Notice for Bitter Creek WSC South
November 29, 2022

Due to a reduced distribution system pressure and or a line break, the Texas commission on Environmental Quality has required that Bitter Creek WSC TX1770007 to notify all customers to boil their water prior to consumption (e.g., washing hands/face, brushing teeth, drinking, etc). Children, seniors, and persons with weakened immune systems are particularly vulnerable to harmful bacteria, and all customers should follow these directions.

To ensure destruction of all harmful bacteria and other microbes, water for drinking, cooking, and ice making should be boiled and cooled prior to use for drinking water or human consumption purpose. The water should be brought to a vigorous rolling boil and then boiled for two minutes.

In lieu of boiling, individuals may purchase bottled water or obtain water from some other suitable source for drinking water or human consumption purposes.

Once the boil water notice is no longer in effect, the public water system will issue a notice to all customers that rescind the boil water notice in a manner similar to this notice.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and business). You can do this by posting this notice in a public place or distributing copies by hand or mail.

If you have any questions concerning this mater, you may call the office at 325-235-4919, or come by 2803 East Broadway Sweetwater, TX 79556. If a customer, Individual or employee wishes to contact the executive director of TCEQ, please call (512)239-4691
